MEMORANDUM OF CONVERSATION

SUBJECT: NATO Paper on Organization of Technical  
Intelligence Within NATO

25X1A9a  
25X1A9a

1. [ ] has advised me that he was invited this morning by Colonel Hibbert, of General Porter's Staff, to discuss the NATO paper on Technical Intelligence. This was a follow-up to [ ] discussion last Friday with Colonel Simon in New York, and was in accordance with Mr. Reber's previous requests to General Porter that CIA be given an opportunity to review the paper prior to JCS review of the JIC recommendations. [ ] stated that his recommendations had been adequately met in the current draft of the paper and requested that Mr. Reber advise General Porter accordingly.

2. Colonel Hibbert indicated to [ ] that the Agency would be given an opportunity to review and comment on any later modifications of the draft.

3. [ ] urged that we take whatever steps seem appropriate to secure in future situations a more adequate opportunity for review by CIA and coordination with State and AEC which is our responsibility in JMIA matters. In this particular case, the only opportunities afforded [ ] for review and comment were in his meetings with Colonel Simon and Colonel Hibbert. I advised [ ] that I would discuss the matter further with Mr. Reber and that we would make every effort to secure an adequate opportunity for review in similar cases in the future.

NOTE: Mr. Reber called JIC, Colonel Lansing, and stated that the Agency was in accord with the draft as revised by [ ] recommendations. Colonel Lansing indicated that the draft produced by the NATO Standing Group, if different from the recommended paper, would be referred to CIA on JIC initiative. Mr. Reber remonstrated mildly on the short time available to us for comment and said that it would be appreciated if, in the future, papers in JIC of interest to CIA and the other agencies would be made available to them for comment on JIC initiative.
